

Bangkok Student Network launch at KIS

• LAST month KIS International School hosted the first meeting of the Bangkok Student Network (BSN), a collaboration of Student Councils from international schools in Bangkok.

Student representatives (both from Primary and Secondary School councils) and staff advisors from eight international schools (KIS, NIST, Ruam Rudee International School, Bangkok Patana, Regents Bangkok, Regents Pattaya, Thai Chinese International School and Bromsgrove International School) were in attendance.

Each school gave a short presentation outlining the structure of their Student Council, highlighting current initiatives and projects. There were some stellar speakers as young as Grade 3 presenting on behalf of their schools.

MC for the event, Sarin Tiatragul from KIS Grade 10, outlined the agenda for the day after which the 40 student leaders brainstormed in mixed groups, challenging themselves to come up with a coherent vision of the BSN.

The next BSN meeting will be at Bangkok Patana School, where the students will consider the logo and mission statement of the BSN and get down to work on planning their first inter-school initiative.
