

KIS International School is an authorised IB world school offering students a well rounded, dynamic curriculum developed using the framework of the International Baccalaureate Programmes. We equip students with the tools to master rigorous academic challenges in math, science, languages, literature, and social sciences. Our international focus helps them tackle broader challenges beyond the textbook. Students learn global citizenship and individual integrity as they develop the skills to deal with life experiences. An active sports schedule, community service and beyond the classroom programmes - for study and for fun - take our students out into the world, while on campus they are involved in drama and music, art, journalism, cooking, gardening and debating, just to name a few. With green spaces and facilities that surpass all expectations, a collaborative academic team that is a source

of inspiration for students and a spirited community working together towards student success, KIS is a leading light in IB education.

KIS offers the IB Primary Years Programme (PYP), the Middle Years Programme (MYP) and in 2008, the highly regarded IB Diploma Programme (DP) a rigorous pre-university course of study. A pivotal component of all three programmes is the IB Learner profile, a set of values and attributes that contribute to the development of the internationally-minded person. At KIS students are taught to be inquirers, communicators, risk-takers, thinkers, knowledgeable, caring, balanced, open-minded, principled and reflective and we encourage parents to do the same at home.

Primary Years

The Primary Years Programme for ages 3 - 11 years focuses on the development of the whole child encompassing

their social, physical, emotional and cultural needs in addition to academics. The programme is based on inquiry, exploration, good citizenship and action using organising themes that serve as the lens through which students can make connections and begin to make sense of the world around them.

Team Teaching used throughout the Primary School is unique to KIS, benefiting our students from the creativity, dedication, inspiration, and attention of two professional educators collaborating as facilitators of knowledge.

Middle years

Students aged 11-16 years study the Middle Years Programme (MYP). Recognising this developmental period in the students' lives, the programme's holistic approach to a rigorous academic curriculum gives them the confidence, attitudes and skills to succeed

both in school and in life. The MYP promotes independence and responsibility, encourages creativity, cooperation, and compassion with the aim of developing young adults who not only think about world problems but also take action to rectify them.

Diploma Programme

In 2008, KIS students will graduate from the MYP to the IB Diploma Programme (DP), a comprehensive and intellectually stimulating course of study recognised by colleges and universities around the world. Our MYP instruction is geared towards ensuring success when our first students leave KIS as IB Diploma graduates in 2010. KIS will implement the IB Diploma Programme in accordance with the same high standards and expectations it has established for its PYP and MYP Programmes. Authorised, accredited and affiliated with institutions associated with high standards

and criteria in international education means we are constantly evaluating ourselves against these benchmarks to ensure that our school is living up to its full potential and providing the best education for our students.

At KIS we stand by our name; Knowledge, Inspiration, and Spirit. Our teachers guide our students to new areas of Knowledge and ways of seeing the world; our philosophy of collaboration and cooperation is a source of Inspiration for the students. The collaborative Spirit flows through the entire school from homeroom to the administration creating a team that can work together to make things happen. Taking action in the present and future is how we make the community, the country and the world a better place, one student at a time.

LOCATION : 999/124 Kesinee Ville, Pracha Utit Road, Huay Kwang, Bangkok 10320

ESTABLISHED : 1998
